3. Comments from Dr. O’Brien
   a. Nothing pressing, updates. Board of Regents meeting May 27-28, WT’s major items are recommended tuition and fees for next year. Request for new residence hall to house 340. Approval for new dean for Nursing and Health Sciences, name recognition, 2 COB classrooms named for donors, and approval for new sculpture in front of ANS which was donated by an alum of Geology program.
   b. This year will have budget hearings in preparation for next year, May 12-14. Each VP is to identify 1) imperatives for next years, 2) desired items for next year, and 3) identified budget cuts. In addition to reductions from state, need to fix some historical gaps in budget areas. Open to attend as observers, not open to general discussion.
   c. Construction plans for the summer: residence hall, renovation of old Ag building to begin in June, phase 4 of ANS renovation after commencement, phase 4 of activities center is already in progress. Hope to begin renovations on MMNH. Parking lot going in where old FA was. Ongoing renovations at old Palo Duro Hospital. Hope to renovate stairs at Old Main right after commencement.
   d. Board driven issues that might arise in the next year projected to include: post-tenure review, faculty workloads and productivity. Many of the issues are College Station driven, but regional universities get involved in the discussion.
   e. Q and A. Q: With a “very thorough” 5 year post-tenure review, what is tenure? A. Not a property right, but an expectation of continued employment. From an institutional standpoint, stability and ability to attract quality employees are benefits. Strengthens academic freedom.
   f. Thanks to Senate for hard work, and a very productive year.

4. Comments from Dr. Hallmark
   a. Reminder that next Friday is Spring Faculty meeting. Recognize faculty award winners in teaching, service, and research. ANS 101 at 4 p.m.
   b. Coordinating Board meeting next week in Austin. Nothing on agenda at this time.
   c. Forwarded email to faculty on Monday regarding textbook adoptions. Buyback at Bookstore starts soon, so wherever possible make sure adoption information is sent to Bookstore. Significant difference to student in buyback price. Suggestion from Landram: where appropriate use the next to the last edition, for significant
savings. Profit from bookstore goes to auxiliary fund, which is used to benefit WTAMU.

d. Q: going back to 3/26/10 meeting, how has “outstanding” been redefined. Committee recommended taking out the phrase “only a few will achieve”.
