WHAT IS AN AHEC SCHOLAR?

A RARE OPPORTUNITY

Open to both undergraduate and graduate students, the new AHEC Scholars program launched in Fall 2018 with a cohort of 25 trailblazers and continues to seek additional applicants.

INVALUABLE EXPERIENCE

Get 40 hours of clinical experience and 40 hours of didactic training per year via intensive training sessions or a flexible schedule distributed across semesters.

INTERDISCIPLINARY LEARNING

Round out your education by exploring current and emerging health issues like opioids and HPV, social determinants of health, cultural competency, practice transformation and behavioral health integration.

COMMUNITY SERVICE

Get out of the classroom and into the real world with hands-on community-based training activities conducted in rural or underserved settings.

NATIONAL AHEC SCHOLARS

The National AHEC Scholars program will provide you with experiences beyond the classroom through rural rotations, interdisciplinary learning, and financial assistance. Panhandle AHEC will award scholars up to \$1,600 for a two-year commitment. The program is open to students enrolled in approved healthcare degree or healthcare certificate programs.
