

Data Bite # 1 – 2023-2024 Associate Degree

2023-2024 Associate Degree

An associate degree is becoming more accessible to students still in high school through many dual credit and advanced programs. This has become a frequent topic around campus, so Institutional Effectiveness decided to research and discover exactly what percentage of WT students have an associate degree.

Looking at unique students from the 2023-2024 academic year the following results were found:

	# With Associate	Total	% With Associate
First-Time Freshman	53	1313	4%
New Transfers	684	1353	51%
All UG	1940	7668	25%

Currently all the associate degrees recorded above are awarded from outside intuitions. WT has a new embedding opportunity to earn an associate degree. It will be interesting to see how these numbers change over the next five years.
